NTP News Report — Part I
**THE MOST IMPORTANT MONEY/POWER DISCOVERY FOR THE INDIVIDUAL
SINCE THE INDUSTRIAL REVOLUTION AND THE RISE OF CAPITALISM**

Frank R. Wallace, Ph.D. — Interviewed by NTP Columnist Eric Savage ©1981

The discovery of an entire new field of knowledge has been made by Dr. Frank R. Wallace*, a former Senior Research Chemist for E. I. du Pont de Nemours & Co. Since mid-1976, Dr. Wallace has worked to uncover a spectacular array of new techniques called Neo-Tech. Those techniques allow ordinary people to prosper anywhere in the world — even during financial hard times, recession, depression, inflation, economic collapse, war. ...I interviewed Dr. Wallace at his home in southern Nevada. Below are edited portions of the interview that explain his discovery:

NTP: What is Neo-Tech? How can I benefit from it?

WALLACE: Neo-Tech is a new, scientific method for collecting unbeatable advantages. Over the decades, all successful businessmen, entrepreneurs, professional people, salesmen, politicians, gamblers, Don Juans have secretly searched for shortcuts that require little skill but contain the effectiveness of the most advanced techniques. During the Neo-Tech Discovery, I identified those shortcuts. As I honed them together, they gelled into a new format that began generating a whole new field of knowledge called Neo-Tech.

Neo-Tech has its roots in the constant financial pressures and incentives to develop the easiest, most profitable methods of gaining advantages. Neo-Tech is the consummate evolution of achieving success and is what every successful person ultimately seeks. Neo-Tech is a new knowledge that has nothing to do with positive thinking, religion, mysticism, or the occult. Once a person knows the money/power-gathering techniques of Neo-Tech, he can steadily profit from almost any situation involving the transfer of money or power.

Believe it or not, I first sensed Neo-Tech through poker — the money game, the international strategy game. Strange how a discovery so important as Neo-Tech started with something so restricted as poker. Indeed, poker is just one rather insignificant area involving the transfer of money in which a person can profit through Neo-Tech methods.

Subsequently, I pursued Neo-Tech beyond cards to uncover far greater advantages in competitive situations involving work, business, politics, and personal relationships. Neo-Tech applies to all winning situations.

NTP: Can people really get rich by using Neo-Tech? Or is Neo-Tech like cheating . . . is Neo-Tech a metaphor for card-sharps, con artists, dishonest merchants, greedy politicians?

WALLACE: To answer your first question: yes, people can get rich by using Neo-Tech. But is Neo-Tech like cheating or for con artists? Definitely not. Cheating and con jobs are based on fraud, collusion, gall, hustling or swindling. Neo-Tech is completely honest and ethical. Moreover, Neo-Tech requires no special skill, devices, or nerve. Neo-Tech requires no risks or changes in life style. Neo-Tech is based on a new knowledge that generates profits and power.

And by the way, Neo-Tech has no link to text-book intelligence or wit; Dale Carnegie-like courses, How-To-Get-Power books; self-help-type offers; learning the ropes; knowing the tricks; getting the breaks; luck; being in the right place at the right time; acting suave; dressing for success; socializing your way up; drinking or golfing with the big wheels; or mysticism. The Neo-Tech Discovery bypasses all the vague, amorphous ideas of the past for gaining advantages. Those ideas and

previously promoted shortcuts are really not shortcuts that count — not the shortcuts that are responsible for the world's most powerful and successful people — not the really powerful shortcuts uncovered during the Neo-Tech Discovery — shortcuts that later gelled into an unexpected format that generates arrays of new knowledge that ordinary people can use . . . knowledge called Neo-Tech.

Indeed, Neo-Tech arises from the essence of all shrewd and easy winning. And certainly, Neo-Tech will someday dominate most winning situations as it spreads into business and personal relationships. . . . But no, Mr. Savage, the Neo-Tech man is not in any way like a cheater, con man, or politician.

NTP: Who exactly is the Neo-Tech man?

WALLACE: Let me begin by saying: Traditionally, the world's most successful people spend years secretly uncovering valid shortcuts within their particular fields. They became specialists in their fields by using those shortcuts to efficiently control people and key situations.

The Neo-Tech Discovery, on the other hand, gathered all possible shortcuts into one crystallized unit that generates a plethora of highly practical, marksman-like formats called Neo-Tech. With those Neo-Tech formats, a person immediately becomes an expert specialist not just in controlling one particular field, but in controlling all situations involving money and power.

So to answer your question: The Neo-Tech man is a man of quiet power — a person who cannot lose. He can control essentially any situation or anyone unknowledgeable about Neo-Tech . . . man or woman.

NTP: Specifically, what does Neo-Tech mean to the ordinary person?

WALLACE: Well, to be specific, the most potent shortcuts prior to Neo-Tech were beyond the reach of ordinary people as only the money/power giants developed the combinations to unlock and use those shortcuts. Moreover, those potent but customized or highly specialized shortcuts in specific fields could not help most people even if they had access to those shortcuts. In addition, the nature of those potent shortcuts limited the money/power giants to their particular fields. Still, beneath all those customized shortcuts lies genuine power. Neo-Tech not only captures that power but brings everything down to earth and removes all limitations. That, in turn, yields still greater power that even the money/power giants were denied. More importantly, most ordinary people can only flounder through life unless they discover Neo-Tech.

Neo-Tech applies to everyone in all money, power and personal situations. By using Neo-Tech, the ordinary person for the first time has the combinations to unlock and use

About Dr. Frank R. Wallace

*During his 12 years at Du Pont's Brandywine and Chesnut Run Laboratories, Dr. Wallace was involved in several major research projects, including the catalytic conversion of salt and sand into chlorine and water glass to reduce the cost of raw materials for industry (Wallace holds the basic patent); the development of commercial flexible nylon used in the auto industry to improve fuel and brake systems; flame retardant nylon to improve the safety of electronic products; fluorocarbon wire coating to improve the efficiency and safety of aircraft, space vehicles, and missiles; high-definition acrylics to reduce the cost and enhance the appearance of signs; and medical uses for man-made fibers, including new leads to disease cures. Dr. Wallace is also the author of several books, the author of many magazine articles (including the first-place, national award-winning article about the bicameral brain), the former editor of a national magazine, and a marathon runner. In addition, he is a former professional poker player and the author of the world's best-selling poker manual, "Poker, A Guaranteed Income for Life by using the Advanced Concepts of Poker". Warner Books, New York. 359 pages.

those potent shortcuts to grow into a money/power giant. But most importantly, he never has to wait — he never even has to become a money/power giant. He can immediately use Neo-Tech to gain unbeatable advantages in his daily routine.

Never before have unbeatable advantages been available to the ordinary man. Indeed, the ordinary person can apply this new knowledge to any chosen extent — from becoming a world success to quietly increasing his income and prestige. The person who acquires this new knowledge can execute complete control over his life and command his destiny.

NTP: You're saying a person can use Neo-Tech to control his own life as well as almost everyone else's life, coming or going.
WALLACE: That's right. Neo-Tech transfers money, power, and prestige from the uninformed to the informed. Those informed can automatically take control of most situations involving money and power ranging from winning a lover to becoming exceptionally competent, to becoming a key employee, to gaining substantial raises, to predicting stock prices...

NTP: Wait a minute! Neo-Tech can predict stock prices?

WALLACE: Yes, quite reliably.

NTP: How?

WALLACE: First a person must realize that a company is worth no more or no less than its free-market price. A company's value — its common-stock price — is always determined in the long term by the ability of its management. Executives

are hired by the stockholders for one reason only... to enhance the financial health of their enterprise in order to increase profits and common-stock prices. The value of an executive is determined by the extent that he provides that service. And he can deliver that maximum value by using Neo-Tech. Indeed, the more an employee — from the hourly worker to the highest paid executive — uses Neo-Tech, the more successful he becomes. And the more management uses Neo-Tech the more that business will flourish and the more its stock price will increase. Thus, to predict stock prices, the *Neo-Tech factor* is a deadly indicator and...

NTP: The Neo-Tech factor... that could be really important for many things, couldn't it?

WALLACE: Indeed, it can make one increasingly prosperous.

NTP: You mean a lot of people will get rich using the Neo-Tech factor?

WALLACE: Yes, it is the coming wave to prosperity. A lot of people will become wealthy... and happy.

NTP: How quickly will Neo-Tech spread?

WALLACE: Naturally, as people gain this knowledge, they will begin using its techniques because they are irresistibly easy, yet extremely potent. Thus, as people find out about Neo-Tech it will automatically spread throughout the world. ...Neo-Tech will become the most important discovery since the Industrial Revolution and the rise of capitalism.

Part II

THE NEO-TECH DISCOVERY

©1981 by NTP

Neo-Tech was unveiled in 1980 by Dr. Frank R. Wallace; his discovery is truly an unbeatable weapon. Neo-Tech is a new, all inclusive catalyst for profiting in essentially any money or power situation.

As a former professional poker player and author of the world's best-selling poker manual, Dr. Wallace made the initial steps toward discovering Neo-Tech through poker. In 1976, while researching and writing an addendum about casino and club games for his best-selling *Poker Manual*, Frank Wallace used his world-known expertise to piece together an unbeatable, seemingly innocent approach being used by certain professionals in high-stake games. Wallace was taking the first step toward the Neo-Tech Discovery.

Gradually, Wallace and his two co-workers uncovered, one step at a time, the full power of Neo-Tech, which became evermore meaningful as they discovered whole new realms of much more powerful concepts than those used in cards. Those valuable concepts applied to everyday situations — situations in which power makes an enormous difference — in business, social situations, and all other competitive and personal situations. Below are edited segments taken from Wallace's notes recorded during his research:

Dr. Wallace's Confidential Notes

July 1976

I've discovered the never-before-revealed nature of effortless winning while playing poker. This discovery purges the false notions about winning in cards and eliminates its mystical aura. While identifying the origins of that knowledge, I'm grasping its powerful nature.

I feel an addicting power as I begin to do the seemingly impossible. With ease I can make maneuvers to beat all opponents. The techniques come from a new knowledge. ...I've named this knowledge, *Neocheating*.

August 1976

Neocheating is something new — something exciting. The quickness with which I'm learning to acquire winning hands for myself overwhelms me. I feel uneasy about learning to win so effortlessly and quickly — all in a few days. With this lethal knowledge, think what a person could do to his opponents in a matter of days.

September 1976

Neocheating can be executed in peace and without the knowledge of others. I've discovered effective maneuvers for controlling every outcome of every situation. Neocheating is almost too easy and safe, yet it is the most potent form of winning. Indeed, the simpler and subtler the technique, the easier and safer and, therefore, the more effective it is. ...Neocheating renders all other cheating plays so obsolete that such cheating is no longer an important threat.

Anyone can quickly become a player who cannot lose. Indeed,

through Neocheating, an average player can increase his advantage so greatly that he can break most games at will. He can win fast — very fast — in poker, blackjack, bridge, and gin. He can acquire large chunks of money, \$2,000, \$10,000, or more in a single day, repeatedly. But he avoids winning too fast by withholding Neocheating's full power in order to extract maximum, long-term money from opponents. He fears no opponent. He can impoverish anyone he chooses; and they'll never know what hit them.

I'm glad to be discovering Neocheating before anyone else. Already I have the knowledge to quietly beat even the most skilled and experienced opponents. This knowledge allows the ordinary player to control opponents at will.

October 1976

I've discovered easy ways to nullify moves made by opponents. I'm struck by the importance of understanding Neocheating. I need that understanding to prosper in situations involving money. Eager with anticipation, I sense that this new knowledge could be incredibly valuable beyond the card tables.

Still I keep discovering more and more invisible techniques that deliver unbeatable advantages in poker, blackjack, and other games. But I'm thinking more deeply of how even the concepts of poker when used through this new discovery apply not only to presidents and their world politics but to everyone, everywhere. I'm grasping how the concepts of Neocheating can be used both to gain large chunks of money

and to gain power in business, government, and personal life.
November 1976

With this knowledge, what could a person do in the real world without the boundaries of a card game? Who is the Neocheater? He is an ordinary-appearing person who will soon rule the card tables and perhaps the world. A chill spreads over me. The closer uninformed people observe a Neocheater, the more reassured they become. The real-world Neocheater appears as a most trustworthy person. But he knows exactly how to win. He can bankrupt opponents, yet instead, he creates advantages that remain unnoticeable to his opponents while delivering maximum long-range profits to himself. Quietly he applies his power in small strategic doses to gain steady yet unsuspecting advantages and profits while keeping everyone happy. Thus, the Neocheater is impossible to catch in the act and is hard to avoid. With his subtle yet unbeatable advantages, he can comfortably and *legally* control all aspects of life. Indeed, the Neocheater is so effective that he obsoletes traditional real-world cheaters. In fact, the Neocheater displays characteristics opposite to those of cheaters as my comparison chart is revealing:

CONTRASTING CHARACTERISTICS

<i>The Traditional Cheater</i>	<i>The Neocheater</i>
Tries to set overwhelming, heavy odds in his favor	Sets unnoticeable, steady odds in his favor
Strives for big-killing, today — wants to wipe out victims	Maintains good profits for as long as he chooses — wants to keep everyone going
Big-win approach, one-shot or short-range oriented	Maximum-win approach, steady or long-range oriented
Views opponents as enemies	Views opponents as assets
Often makes victims unhappy while creating tense, traumatic atmospheres	Usually makes everyone happy while creating friendly, easy-going atmospheres
Often still and nervous	Always relaxed and confident
"When should I do it" feeling — cheats at every opportunity	Knows exactly when to Neocheat — Neocheats selectively
Keeps people from watching him closely. Uses distractions and concealments	Lets people watch him. Needs no distractions or concealments
Causes suspicion with cheating moves — fears all opponents	Eliminates suspicion with Neocheating moves — fears no one
Worries that his cheating will be seen	Knows that Neocheating cannot be seen
Fears his telltale characteristics	Works in relaxed harmony with his natural characteristics
Worries about the consequences of being caught in the act	Knows he cannot be caught in any act
Is negative in every way	Appears beneficial in every way
Controlled by surroundings	Controls surroundings

Their characteristics are opposites — the Neocheater is in complete control. But their differences go much further: A alert or knowledgeable person can usually detect cheating especially in business and politics — unless the cheater has acquired great skill through years of laborious practice and experience. Even then, the expert cheater must execute each strategy perfectly, every time, putting him under great pressure. Thus, if he makes one slip or one wrong move to get caught, he becomes obviously guilty, leaving him to face the consequences. That fear of being caught haunts most cheaters and overwhelms countless potential cheaters. By contrast, the Neocheater's techniques are invisible. So even if suspected, he can never be accused — his tactics actually eliminate suspicion. Indeed, he can always avoid the consequences because he can never be caught in any questionable act. ...The Neocheater works in relaxed harmony with his natural characteristics.

December 1976

Because Neocheating is so subtle, no one can ever prove a person is using its techniques. The Neocheater has the power to render others helpless, even wipe them out, but he wisely chooses to use just enough of his power to give him unbeatable casino-like

advantages in all endeavors. His Neocheating maneuvers are so subtle that they can be executed with casual confidence. His hidden techniques let him win consistently and comfortably — year after year, decade after decade. Eventually, Neocheaters will quietly rule everywhere as revealed by my chart showing how a person gains profit and power from Neocheating in the real world where advantages and power really count:

NEOCHEATING DELIVERS PROFITS AND POWER BY TEACHING ...

<i>In Cards</i> (Where Neocheating was first discovered)	<i>In the Real World</i> (Where Neocheating really counts)
How to become an unbeatable winner	How to gain advantages needed for financial and social success
How to command winnings	How to command profits and respect
How to control any player, game, or even a network of games	How to control business deals and emotional situations to acquire money and power
How to win quickly	How to profit immediately through specific business actions or personal relationships
How to slowly drain opponents, game after game	How to gain long-range strategic advantages that allow one to win in business or personal situations, year after year
How to extract maximum money from opponents	How to make the highest possible profit in business. How to gain the maximum advantages in social or personal relationships
How to easily detect, reject, or beat cheaters (without any hassle) ...how to destroy cheaters	How to easily detect, reject, or beat dishonesty in business or personal relationships...how to dismiss or crush people who harm you
How to quickly wipe out opponents	How to subjugate a business or personal adversary
How to welcome good players and make them contribute to your winnings	How to welcome competitors in business or personal life and make them contribute to your success
How to gain a substantial income, year after year	How to prosper in all areas of life

January 1977

Neocheating *in cards* involves gaining easy money and power over opponents through techniques that meet two criteria: (1) easy to execute, and (2) invisible or undetectable. Neocheating *outside cards* involves gaining easy advantages and power over others by meeting two similar criteria: (1) easy to execute, and (2) not vulnerable to detection or assessable as dishonest.

Once those two criteria are established, Neocheating formats can be established for almost any situation. With such formats, a person not only captures unbeatable advantages over others, but commands shortcuts to profits and power. I'm realizing how many of the most wealthy, powerful, and admired people today consistently use Neocheating formats without ever realizing it — without ever being suspected. I call those people Master Neocheaters. They acquire extreme power and wealth. Such people include trusted heads of states, powerful political leaders, charismatic idols, famous religious leaders, certain prosperous businessmen, international bankers, many of the best-known TV commentators, key journalists, influential editorial writers, Hollywood actors, many well-known authors, certain prestigious professors, many successful lawyers, highly visible environmentalists and consumer advocates, politically or socially oriented scientists — many of the most powerful people in the world. By the mid 80's, perhaps every ordinary person who becomes wealthy or powerful in any field will have used this discovery. ...I've got to think about Neocheating a lot more deeply. New ways for ordinary people to gain power and advantages are bombarding me faster than I can analyze them.

February 1977

Neocheating sharply reduces the time and effort to profit from

Continued

tently. What is happening in cards today indicates what will happen in the real world tomorrow. Within days after gaining this knowledge, people can safely bankrupt opponents — or slowly profit from them, week after week. People can extract money and prestige from any winning situation... from any card game — from the easiest Friday-night game to the toughest professional game. Likewise, people can benefit from financial endeavors — from dealing with the boss to the biggest oil deal. People can also benefit from any relationship — from gaining respect of peers to inducing love from a partner. Yet no one suspects the Neocheater.

The application of Neocheating to everyday financial and personal relationships is becoming increasingly real. In fact, Neocheating can be used in any confrontation involving two or more people. And anyone who crosses the Neocheater's path is in potential danger. The Neocheater can financially and emotionally control whomever he desires. The strength and dimensions of Neocheating with its infinite applications reach far beyond my previous thoughts and imagination.

March 1977

I feel an accelerating pull towards power as I continually discover new ways that anyone can effectively apply this new knowledge to any winning situation — in business, politics, gaming, personal and social life. But I am sensing different types of shortcuts never known to me before — shortcuts that never could have been perceived without having first identified and understood the Neocheating shortcuts. Yet these new shortcuts are totally different than those of Neocheating — they are actually the antithesis of Neocheating. In fact, these new shortcuts take a form all their own... a form previously unknown to man.

April 1977

I keep thinking over and over how discovering these new techniques or shortcuts first required understanding then completely inverting the Neocheating principles to reveal the greatest power possible to man — to reveal the real shortcuts to a successful and prosperous life. ...No wonder the ideas of the past and previously promoted shortcuts never could reveal the real secrets to success — the real shortcuts.

These shortcuts have greater power than I ever thought possible: power dramatically true to man's nature — consummate power that is far greater than possessed by any Neocheater, even any Master Neocheater... synergistic power that has made History's most successful few. And all of these new techniques and shortcuts are completely honest while ironically requiring less skill and effort than the Neocheating techniques.

This new discovery compresses all these new shortcuts in every possible area into one unified format. This single unit is generating a whole new field of knowledge that will let not only powerful people but any ordinary person take control — awesome control — over every money, power, and personal situation. This could be the most dramatic discovery of our time. ...I've named this discovery — this new knowledge — Neo-Tech.

May 1977

I am now realizing that Neo-Tech is the most dramatic discovery of our time. Never before did ordinary people have access to the shortcuts previously available to the world's most powerful people. But now those shortcuts can become available to everyone who learns of Neo-Tech. And much more than that, this discovery unifies those previously exclusive shortcuts into a single unit that keeps generating Neo-Tech — keeps generating brand-new knowledge. That new knowledge lets anyone, from the world's money giants to ordinary people, gain unstoppable advantages not only in the highest powered situations but in everyday, routine situations confronted by everyone. Neo-Tech has no limitations. Anyone knowledgeable about Neo-Tech can prosper for the rest of his life.

December 1980

After four years of research and writing, I've come to realize that Neo-Tech power is permanent and once acquired can never be lost to anyone. NeoTech obsoletes external authority and renders Neocheaters impotent. With Neo-Tech, anyone can become the person he's always dreamed of — the person he was meant to be.

January 1982

I'm learning the full meaning of Neo-Tech power: All will yield to the Neo-Tech man. ...Truly great days are coming.

Recently, Dr. Frank R. Wallace and his co-workers completed a five-year research program on Neo-Tech and prepared a comprehensive, half-million word Information Package that fully reveals all facets of the Neo-Tech Discovery. That Information Package reduces the techniques of Neo-Tech into powerful but surprisingly easy formats that anyone can execute in almost any situation. The public can now acquire the complete 632-page Neo-Tech Information Package for becoming unbeatable in almost any competitive or money/power situation. Both Neo-Tech I and II describe every step and every situation in detail with over 200 concepts. Many concepts are accompanied with how-to, real-life situations. And each concept is in a crisp, self-contained consultant capsule so that any reader can use Neo-Tech Power to fill his own wants and needs — beginning with Concept I — without having to read through the entire package. Also a quick-find index of over one-thousand subjects lets the reader go straight to the concepts that apply most to his immediate needs.

ADDENDUM TO THE NTP NEWS REPORT — ADDITIONAL INFORMATION ABOUT THE NEO-TECH DISCOVERY
by Mark Hamilton, Editor ⁹1982

During Eric Savage's interview with Dr. Frank R. Wallace, other important questions and answers about the subtler powers of Neo-Tech were recorded near the end of the interview. But because of Neo-Tech's dramatic power to create quick advantages, I omitted the latter part of interview from the NTP News Report. Then, during subsequent weeks, I realized my mistake: Neo-Tech's subtler powers and great personal values will, over the long-term, be equally as valuable as the immediate rush of money and power advantages so easily available to the Neo-Tech techniques as revealed in the original NTP Report. Also, revealed is the dramatic contrast of the shortcuts to profits and power achieved through dishonest Neocheating versus the unstoppable profits and power achieved through honest Neo-Tech.

Therefore, I'm providing the rest of Mr. Savage's interview:

NTP: Beyond the immediate financial advantages and quick profits available from Neo-Tech, how will the Neo-Tech Discovery affect you and me in the real world... in society?

WALLACE: Neo-Tech meets the criteria: easy and safe — but powerful. Therefore, Neo-Tech will increasingly be used in all areas by more and more people. And the lives of those people will grow richer. Of those, some will choose to use Neo-Tech concepts to gain enormous power and wealth. But equally important, people knowledgeable of Neo-Tech cannot be drained by Neocheaters. The ordinary man, no matter how low on the power scale, can reverse the situation. With Neo-Tech, he can take away the power from the Neocheaters who have drained him all his life. That is extremely important since the most powerful external authorities today extract money and power from the masses of unknowledgeable people by Neocheating. For example, essentially every traditionally trusted politician has for years gleaned power by Neocheating the uninformed public without fear of being caught, without suspicion. Indeed, to the extent he is successful is the extent he uses Neocheating. Consider how many of the most successful politicians have for years overtly regulated, controlled, and taxed the public — have neocheated the public — for personal power. Their power plays have created such a jungle of regulations, inefficiencies, and red tape as to hassle busy individuals, cripple creative scientists, and prevent private enterprise from fully developing their productive and technological capacities. That arrogated authority not only diminishes everyone's spirit, but diminishes everyone's standard of living and even prevents the development of cures for diseases such as cancer. More importantly, research on biological immortality...

NTP: Wait a minute. Preventing cures for cancer? How can that be so?

WALLACE: Let me relate a personal experience: As a scientist at Du Pont, I was involved in research that offered a unique approach for the treatment of diseases. One potential approach involved the development of extremely fine fibers impregnated with slowly releasing drugs. If such fibers were injected around cancer tumors, for example, the growth of those encased tumors might be retarded or stopped — to lay harmlessly dormant in their man-made coffins forever. But FDA "scientists" and other bureaucratic Neocheaters trying to enhance their jobs and glean prestige killed that and many other promising research projects with time-consuming, prohibitively expensive, self-serving regulations.

NTP: You know, "60 Minutes" recently dealt with something like that. And I hear about that kind of thing more and more these days. How can it be stopped?

WALLACE: Today, as Neo-Tech spreads, people in steadily increasing numbers will be able to, for the first time, avoid the harmful ploys of those external authorities. As the public becomes informed of Neo-Tech, they will be able to identify and circumvent those master Neocheaters who have previously drained them. Now, ordinary people will be able to fill their own pockets with profits rather than lining the pockets of the Neocheaters. Politicians and other authorities will be increasingly understood by the public as more and more people learn about Neo-Tech. I have a chart that demonstrates how most people have unknowingly let their lives be drained by those external authorities. This information also shows how the informed will financially and emotionally benefit by breaking free of those master Neocheaters. Indeed, everyone informed of Neo-Tech will have the tools not only to break free but to profit from the decline of external authority. Furthermore, this information shows exactly how the average person can turn into a Neo-Tech man... a man who can acquire far greater advantages than any Neo-

cheater — even a master Neocheater.

NTP: Your chart uncovers things I was never aware of. It's bad enough that those Neocheaters conceal their ripped-off power, but it's rotten how they're doing it by draining me, you, and everyone else... those bastards. Do you see we're the ones who really count...

WALLACE: That's right. We're the ones who hold the power on this planet. But like you, most people have never been aware of that. Now, with Neo-Tech you can truly control your life. That's why the Neocheaters never told us their secret, because we would take away their power that is rightfully ours. You, like everyone else could never really know the truth behind external authorities without understanding Neo-Tech. The actions of such external authorities usually depend on Neocheating — on undetectable routes to easy money or power at the expense of others. Like the Neocheater in cards, the external authorities are confident and relaxed; they control their surroundings; they work in harmony with their natural characteristics; and they know they can never be caught. Furthermore, they seemingly benefit their victims by giving them guidance, leadership, or doctrines to follow — making those victims easy to control. Fortunately, however, publicly revealing Neo-Tech exposes the Neocheater's essence. That could lead to the eventual demise of external authority... No longer need you be denied what is rightfully yours.

Indeed, today, you as the Neo-Tech man never again have to feel helpless. You never again have to depend on anyone or anything of the past. You can enter a new world and control your own future. You can become a Clark Kent — a quiet superhero. You can gain the real power — the real advantages and profits that few ever knew existed.

NTP: Now I know why the Neo-Tech Discovery will immediately...

WALLACE: Also, consider another benefit of understanding Neo-Tech: the stopping of the pain and harm caused by certain everyday acquaintances straight up to the authoritarian bureaucrats who surround everyone in almost every area of life. Neo-Tech can abruptly stop the pain and harm caused by being beaten at cards, cheated or exploited by one's spouse, manipulated by parents, drained by bosses, gypped by merchants, intimidated by pushy or moined people, misled by professional people, stunted by dishonest and incompetent educators, used by friends, abused by strangers, fooled up by bureaucrats, fooled by mystics, and hurt by government.

Neo-Tech can truly put an end to all those hurts and disappointments that have constantly kept you from becoming the person you've always dreamed of — the person you were meant to be.

And there are other side benefits. For example, when viewing network TV with the knowledge of Neo-Tech, a person becomes acutely aware of the steady stream of powerful Neocheaters — TV commentators, news editors, sociologists, politicians, educators, nutritionists, faddists, mystical gurus, and religious proselytizers — who constantly gain advantages from their followers in countless subtle ways. Neo-Tech concepts allow people to identify and nullify Neocheaters who drain everyone's life daily.

With the concepts of Neo-Tech, a person nullifies those Neocheaters while transferring their power from them to himself. He no longer needs to bow to or idolize the man-on-the-hill. Neo-Tech allows people to be proud of themselves. With Neo-Tech, a person knows with fearless righteousness that he, himself, is the most important person — and everyone will know it.

NTP: Can you restate what you're saying to bring me back to earth?

WALLACE: The Neo-Tech concepts are practical tools for profits and crucial tools for thinking. Neo-Tech really puts one on the right track. No longer do people have to suffer in frustration watching their lives and dreams be quietly drained away.

NTP: Yes. Who hasn't felt that distant, lonely sadness...
WALLACE: The Neo-Tech concepts are among the most powerful thinking tools for profits; they are the cutting edge for prosperity... for making realistic dreams come true. Neo-Tech can rekindle those sparks that flickered out long ago.

NTP: Is all that really true? I mean, does all that really apply to us — to us who work for a living?

WALLACE: You are the good, the innocent, the powerful. You are the Clark Kent. The days are over of your being defrauded of wealth, pleasure, and happiness. The days are over of being victimized by the politicians, mystics, and pseudo intellectuals. In your innocence, you have unknowingly been drained by Neocheaters. Now, at last, you can break free and take what all productive human beings rightfully earn but seldom take — a quality life of comfort, pleasure, and wealth. But even more, you can now become the Neo-Tech man and command your own future.

NTP: That's pretty profound. I'll have to give that some deep thought.

WALLACE: You should. For the more one thinks about Neo-Tech, the more he will profit from it.

NTP: What if I want to profit more and more? What if I get a little greedy? What if I want to become the man-on-the-hill now — through Neo-Tech?

WALLACE: Look at the chart again. Contrary to what most seem to believe, the highest profits of Neo-Tech come not from *destroying* advantages of others, although anyone can do that with Neocheating to gain tremendous power and profits. But the highest profits come from *creating* honest advantages for oneself. Indeed, to an chosen extent, you can apply Neo-Tech to personally gain both immediate and long-range advantages in business, personal life, and social situations... the applications of Neo-Tech are endless.

Back to your question about becoming a little greedy. As the first step, anyone can immediately profit by collecting the Neocheating advantages available in any winning situation. Moreover, anyone can use Neocheating to control other people — control even the sharpest, most-alert people. Master Neocheaters use undetectable techniques to gain maximum advantage from every situation to acquire extreme power and wealth. And anyone can use Neocheating to gain easy advantages or profits to any chosen degree. But who needs that? The Neo-Tech man, he can easily do all of that. But the Neo-Tech man... he needs none of that. For him, Neocheating is limiting and obsolete.

Just acquiring the knowledge of Neo-Tech will show you how to reach your goals quickly and easily. You will experience a mounting sense of power and excitement while learning about Neo-Tech. Indeed through the Neo-Tech Discovery, you too can achieve great strength in your career or field of interest by becoming a quiet Neo-Tech man. In addition, you will forever be immune to Neocheaters... immune to most harmful situations. And, of course, if you ever decide to play cards seriously, you could leave any game a consistent loser, acquire the Neo-Tech information, and return never to lose again.

NTP: Winning a fortune at cards seems so insignificant now compared to what one can really do with Neo-Tech.

WALLACE: Mr. Savage, you're on the way to becoming a Neo-Tech man.

— A Postscript From Eric Savage —

Personal Profits — Mine

Although I spent several hours interviewing Dr. Wallace about Neo-Tech, I failed to realize the profound benefits and major profits available from Neo-Tech until actually receiving the Information Packages. While opening the cover of The Neo-Tech Discovery (volume I), a feeling came over me that I was embarking on a journey from which I would never return. I felt my life changing on reading the first concept. And each subsequent concept delivered new advantages I never knew existed. I could see mentally the new benefits from this new knowledge . . . how I could integrate each new benefit into my daily life to profit from anything I do.

Three weeks later, on closing the cover of Neo-Tech II, I knew how to capture advantages from almost any situation. I had discovered a new world in which power always flowed to me. . . Today, I control my life and surroundings. My earning capacity is now limitless, allowing me to guiltlessly take from life whatever benefits me. Moreover, I now have a growing power that can never be lost or taken from me — a power earned while studying Neo-Tech.

Admittedly, I was unprepared for the array of advantages that Neo-Tech provides. Even after spending several hours with Dr. Wallace discussing Neo-Tech, I was still unprepared for the Information Package. So what about those people being newly exposed to Neo-Tech without my advantage of having first talked to Dr. Wallace? How will they handle the sudden advantages thrust on them? . . . After recovering from the initial shock (and everyone will be shocked over the powerful advantages so readily available to them), those who study Neo-Tech will embark on a one-way journey to limitless opportunities, advantages, and personal profits.

Personal Profits — Others

With Neo-Tech, I find myself among an exclusive but rapidly growing group of people who are discovering a new prosperity and collecting major profits through Neo-Tech. The fastest growing files at NTP are those being filled with reports from readers describing the personal benefits that Neo-Tech is delivering. Some of those reports received in the past 2 months have been culled and summarized below:

(Excerpts from Recent Letters)

"The most valuable work I have ever read, and the best investment I have ever made." L.W., California; "I never would have believed, until I read Neo-Tech, that so much was going on of which I was unaware." D.M., California; "At the core of Neo-Tech is the clear delineation between winners and losers. And it saddens me to observe how many people lose when it is all so unnecessary." M.V., Wisconsin; "The purchase price of

Neo-Tech has been returned to me literally thousands of times." H.T., Texas; "My business has almost doubled in this short time. It's amazing!" J.D. Texas; "I have found your work priceless. It opens a new world for me." P.S. California; "Made clear why people can be controlled. Realize how I've been cheated and deceived in all areas of my life. An awakening, a new life. Dr. Wallace has created the information to shape my future." B.K., Kentucky; "Neo-Tech set me free to become the productive, guilt-free individual who was always within me." C.L., Virginia; "Totally stunned. Many times I wanted to surrender to my destiny. Neo-Tech has changed all that." R.S., California; "For over 50 years of search, only Neo-Tech has given a clear and definitive answer." R.S., Illinois; "Neo-Tech is absolutely essential for awakening us from the mesmeric manipulating power of the Neocheaters." I.C., Oregon; "Neo-Tech will be my personal guidance throughout my life." D.Z., New York; "Used with outstanding success in doing business." F.G., California; "Gained so much in such a short period of time." G.K., Illinois; "After Neo-Tech, I'll never be the same. You bet I'm enthusiastic." A.S., California; "Reversed my beliefs. Will greatly affect my future actions." E.G., West Virginia; "Business and interpersonal concepts are invaluable." S.H., California; "Until Neo-Tech, I was never free from life's diminishing forces." T.M., Illinois; "Masterful job of unmasking the Neocheaters' control over the masses." F.S., Tennessee; "Frees man and puts the ancient ministers to rest." N.P., Canada; "Most valuable lessons ever learned." K.P., Texas; "Of all the millions of pages . . . Neo-Tech is the most comprehensible." H.M., Kansas; "Thanks to Neo-Tech, I've made a tremendous turnaround and progress." K.S., California; "Every adult and teenager in the world should read Neo-Tech." G.W., Texas; "With Neo-Tech, people can finally develop to the fullest." F.S., Tennessee; "Profound benefits to individuals." E.O., Colorado; "Neo-Tech taught me the most valuable lesson I've ever learned. I am literally in awe of Dr. Wallace for what he has done." P.C., Texas.

I remembered Dr. Wallace's charts. Now, with the Neo-Tech knowledge in my possession, I could make my own chart expressing my new power — a power far superior to that of Neocheaters:

<i>Neocheating</i>	<i>Neo-Tech</i>
Great power/wealth, but limited.	Endless power/wealth.
Controls only those unknowledgeable of Neocheating.	Controls everyone and every situation.
Potential limited to the uninformed.	Potential not limited.
Most at his mercy, but he is at the Neo-Tech man's mercy.	At no one's mercy.

Ever notice how every issue of most magazines seems just like the ones before it — same old subjects, same predictable views, same boring editorials.

At AGAINST THE WALL, we plan each issue as an entity in itself — separate and special, unlike all which have come before. No two covers out of more than 100 we've published since August 1972 have been printed in the same colors. But the uniqueness of each issue goes far beyond the covers.

In one issue, you might find an article defending women's rights to reproductive freedom. The next issue might contain a piece arguing for the rights of the unborn. We might offer an advance look at an anti-nuke civil disobedience campaign and follow it up, a few issues later, with an author's attack on the nuclear freeze movement.

This is not to say that AGAINST THE WALL will shy away from taking a stand on important issues — unlike most magazines, you can find our opinions in our editorials, separate from the articles. As we stated in 1973:

We reject the concept that there is only one "true" libertarian system.

We do not restrict ourselves to the presentation of any one particular brand of libertarian philosophy, but exist to show the true richness, breadth and scope of libertarian social and economic visions.

Anyone with something to say who has been frozen out by cliques in the movement can get a hearing from us.

Sound too good to be true? Try us, by ordering a back issue or two. We believe that you'll find us to be everything we've said — and more.

THE VOLUNTARYISTS:

The Voluntaryists are libertarians who have organized to promote non-political strategies to achieve a free society. We reject electoral politics, in theory and in practice, as incompatible with libertarian principles. Governments must cloak their actions in an aura of moral legitimacy in order to sustain their power, and political methods invariably strengthen that legitimacy. Voluntaryists seek instead to delegitimize the State through education, and we advocate withdrawal of the cooperation and tacit consent on which State power ultimately depends.

LIBERTAS Zurich '82

Zurich, Switzerland, August 1982 was the site and time of a historic gathering — the *First International Libertarian Convention!* Close to 100 freedom lovers from the far corners of the globe gathered to discuss strategy and structure and, in a super-charged atmosphere of warm comradery and unflagging cooperation, a "battle plan" for the 80's was formulated. You will be hearing a lot about this momentous gathering in the libertarian press in the months to come, but to those concerned with the "Future of Freedom", the happening at Zurich this summer was most exciting.

FEE's Leonard Read, in recent correspondence, notes, "Such a project would have been unthinkable a generation ago, but the groundwork has been laid little by little over the years . . . I congratulate you . . ." Of course, his congratulations should also have been extended to himself *and* the many pioneers present at *this* gathering who were personally responsible for the laying of much of this groundwork.

THE FUTURE

The **Libertarian International** will be assisting the efforts of individual libertarians around the world — providing a bi-monthly newsletter, "*Free World Chronicle*" in English, French & Spanish and commencing work on a vitally important program of publishing a multi-lingual libertarian booklet series. A very desperate need for these intellectual tools in non-English-speaking countries has been expressed by many individuals — particularly those in Spain and South America — and it is generally felt that the growth of freedom can be radically accelerated by making freedom-oriented printed matter available to these people — in their languages
