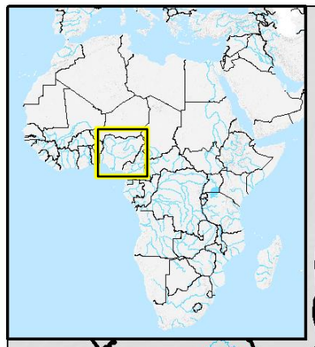
# Nigeria | Floods

European Commission



## SITUATION OVERVIEW
*as of 19 Oct*

- **603** Fatalities
- **2 407** Injuries
- **> 1.3 million** Displaced people
- **> 2.8 million** Affected people
- **203 371** Destroyed/damaged houses
- **441 719 ha** Destroyed/damaged cropland

*Source: NEMA*

- Since the first half of August, widespread floods triggered by heavy rainfall impacted more than 2.8 million people across Nigeria.
- With massive damage to croplands, the flooding risks further aggravating the already severe food insecurity and malnutrition in the country, where an estimated 19 million people face food insecurity.
- Priority needs include food items, nutritional food, non-food items, emergency shelter, water, sanitation and hygiene, medical supplies, and logistical support.
- The Government of Nigeria through the National Emergency Management Agency (NEMA) and humanitarian partners are responding with food, non-food items and clean drinking water but additional resources are required to scale-up the response to the unprecedented flood impact.
